PROFILE

Highly motivated recent graduate with a Bachelor's degree in technology and experience in data analysis and visualization. Proficient in programming languages such as Python and SQL. Seeking an entry-level data analyst role to apply my skills and contribute to a dynamic team.

SKILLS

- knowledge of data analysis , such as data cleaning, data manipulation, and data visualization
- Programming languages such as Python, SQL,.
- Data visualization using and PowerBI
- Excellent analytical and problem-solving skills
- Good understanding of statistical methods and their applications
- Strong written and verbal communication skills

EXPERIENCE

PROJECTS

Power BI- sales insight

2023-2023

- Installed, set up, and managed a MySQL database server, connecting it to an online sales database containing multiple tables.
 - Setup a star database model to connect various tables in PowerBI
 - Utilized Power BI to connect the database, perform data wrangling operations, and remove irrelevant data such as negative and zero sales amounts, and duplicated currency values.
- Developed an interactive dashboard to showcase valuable sales insights, including declining sales performance per year, top 5 markets, top 5 products sold by year, price, and more.
